Personal Profile

Computer Engineering graduate (**B.E., 2026**) specializing in **Java Backend and Full Stack Development**. Experienced in building secure RESTful APIs using **Spring Boot, Spring Security (JWT), Hibernate/JPA, and PostgreSQL/MySQL**, and responsive interfaces with **React.js**. Delivered **3 projects** involving AI integration, threat detection, and voice interaction, with strong foundations in **OOP, Data Structures, and Algorithms**. Available immediately.

Skills

Languages	Java, JavaScript, Python, SQL
Backend	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful APIs, JWT Authentication, Node.js, Express.js, FastAPI
Frontend	React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Vite
Databases	PostgreSQL, MySQL, MongoDB
Tools & DevOps	Git, GitHub, Maven, Postman, Docker, CI/CD
Core Concepts	Object-Oriented Programming, MVC Architecture, Data Structures & Algorithms, Agile, Problem Solving
AI Integration	OpenRouter API, YouTube Data API, GitHub Copilot, ChatGPT, Prompt Engineering

Projects

MentorAI — AI-Based Learning Roadmap Platform [GitHub]

March 2026 – April 2026

- Developed an AI-powered learning platform using **Java and Spring Boot**, implementing **10+ REST APIs** for roadmap generation and user management.
- Integrated **JPA/Hibernate** with PostgreSQL/MySQL and implemented secure authentication and authorization using **Spring Security and JWT**.
- Integrated **YouTube Data API** and an AI chat assistant, with a React.js dashboard for learning resources and progress tracking.

Cyber Threat Intelligence Using Multi-Agent Framework [GitHub (Team)]

January 2026 – June 2026

- Integrated a ransomware detection model into a **Python FastAPI** backend for real-time threat prediction and classification scores.
- Developed REST APIs and a feature-processing pipeline to convert system activity logs into model-ready inputs.
- Integrated backend APIs with a **React.js SOC dashboard** for scan results and alerts, collaborating through Git.

Veda 2.0 — Voice AI Assistant [GitHub]

August 2026

- Developed a voice-based AI assistant using **Node.js, Express.js, and React.js**, integrating OpenRouter and Web Speech APIs for AI responses and speech interaction.
- Built a secure **Express.js backend proxy** to protect API credentials and handle requests; implemented query confirmation, duplicate-request prevention, and speech interruption controls.

Work Experience

Nexus Logic Technology *Remote*

Frontend Developer Intern *Dec 2024 – Feb 2025*

- Developed a **Project Management Dashboard** with 4+ modules for task tracking, budget monitoring, project summaries, and progress visualization using **React.js, Tailwind CSS, and Vite**.
- Built reusable, responsive UI components and collaborated using **Git and Agile workflows**, incorporating feedback to improve cross-browser compatibility and usability.

Education

Pride English School (SSC)	89.60%	2020
Abhinav Jr. College (HSC)	81%	2022
Modern College of Engineering (B.E. Computer Engineering)	CGPA: 7.95/10	2022–2026

Certifications

2024 **Java Full Stack Developer Virtual Internship,** EduSkills Academy *View Certificate*

2024 **Frontend Developer Internship Certificate,** Nexus Logic Technology *View Certificate*

Achievements

Problem Solving, Solved 200+ coding problems on LeetCode *LeetCode Profile*
